RE: Asbestos Hazard Emergency Response Act (AHERA) Services
Initial AHERA Inspection and Management Plan – November 2024
E2S File 1526.0001

Dear Jill:

Enclosed please find the Initial AHERA Inspection and Asbestos Management Plan for the Evergreen Community Charter School, following the inspection performed by Element Environmental Solutions (E2S) on November 7, 2024. E2S is providing one (1) bound copy of the management plan, along with a flash drive which contains the AHERA documentation in PDF format. The bound copy of the management plan should be kept on file at the Evergreen Community Charter School in your central AHERA recordkeeping location, typically in the main office or the office of the Designated Person or Asbestos Coordinator.

We remind you to document the following AHERA requirements to assure compliance with the AHERA regulation: notification to parents and guardians of the availability of the management plan for review (notification included with this report for your reference and use). Since no asbestos containing building materials (ACBM) were identified, the Evergreen Community Charter School is exempt from future AHERA requirements, including re-inspections, training, and documentation of asbestos abatement response actions.

Thank you for the opportunity to present Element Environmental Solutions (E2S) as a partner in your environmental management efforts. Should you have questions or require additional information, please contact me.

Sincerely,
E2S, Inc.

David C. Bertsch
Operations Manager, IAQ
