

MOVEMENT SCHEDULED OUTSIDE OF SCHOOL

Physical Education (Movement) is a required subject under Pennsylvania Law. In order for students to receive credit for this subject, student participation and instruction needs to be fully documented. The overall health and nutrition benefits of any activity also need to be outlined. Evergreen understands and supports the flexibility for parents to sign out their son or daughter, on occasion, to participate in an alternate activity.

In an attempt to alleviate the Friday chaos, and to ensure that our records are complete for Pennsylvania audits, we are clarifying our procedure. If you will be signing your son/daughter out on Friday we are asking that you complete the attached form and return it to Nancy by Wednesday, each applicable week.

If the form is not returned by Wednesday, we are asking your cooperation in allowing your son/daughter to participate in Evergreen's offered activities for that particular week. This form will be available in the office and on the Evergreen website for your convenience.

(www.evergreencommunityschool.org)

In order to receive credit for movement, instruction must be documented.

Thank you in advance for your cooperation and support.

My son/daughter _____ will be participating in

_____ on Friday, _____ 2024/2025.
