LEA Profile

The Director of Evergreen and all staff members collaborate at school during regular hours, and at special meetings, providing information and needs regarding special education, student health care, guidance, technology, and other student services that the school provides. School demographics and enrollment information are compiled from office records. Needs assessments are ongoing, relating to school safety, curriculum development and implementation, instructional effectiveness, and the use of student assessment data. As a team we are identifying our needs with regard to implementing data-driven decision-making and instruction. Progress on completion of the plan will adhere to a timeline ensuring its finalization prior to the March, 2026 deadline. The Director, Principal, and Special Education Representative will be responsible for final completion of the Comprehensive Plan on PDE's website. The final results of the needs assessments, goals, and action plans will be presented to our review committee, comprised of Board Members, teachers, and parents. The plan will be revised based on the committee's feedback and suggestions. The plan will also be presented to the Board of Trustees for feedback before being finalized.

Mission and Vision

Mission

The mission of Evergreen Community Charter School is to prepare young people for meaningful life experiences with respect to career decisions, interpersonal relations, and community involvement.

Vision

To achieve this mission, emphasis is placed on the integration of technical and academic applications through a cross-curricular approach. This method of education is a model which serves the needs of the child as a whole being by creating environments for learning that respect individual differences and emphasize social interaction. All levels of abilities are served as students live and learn in a natural, mixed-age group which is very much like the society they will live in as adults. The high level of academic achievement so common in this method is a natural outcome of experience in such a supportive environment. The education of the whole personality rather than the teaching of a specific body of knowledge lends itself to opportunities for community service, travel, and cooperative experiences with local business partners. Evergreen Community Charter School is committed to the future. Our strength in environmental sciences, communications skills, mathematics, foreign language, theater, and travel gives us the confidence to expand our programs.

Educational Values

Students

Our students are an integral part of our school community. They each have value and share in the responsibility for their success in the educational process. Each student possesses unique strengths and needs. They are to be respectful and respected and need the opportunity to learn in an educational program that maximizes their potential.

Staff

Our teachers foster higher level thinking and learning among all students. Teachers and parents are strategic partners in the success of each student. Our teachers continue to develop and grow each year. Evergreen's teachers recognize individual differences in each student and help each to meet his or her potential.

Administration

Evergreen's administrators utilize community resources and input in the decision-making process. Our administrators make decisions consistent with the mission statement of the LEA. They are committed to personal and professional growth and development. The administrators plan and implement a safe and positive learning environment. Our administrators encourage excellence and innovation as they assist teachers in implementing the district curriculum. Evergreen's administrators focus on positive communication between families and school.

Parents

Evergreen's parents and guardians provide continuous positive involvement in the educational process. Parents and guardians support educators in educational programs and discipline to enable students to be in a safe environment conducive to learning. Parents and guardians communicate with students and educators.

Community

The school community is respectful and responsive to its diverse composition. Our community creates an environment that supports each student at his or her individual level.
